

TMF15

Main Specifications

Mast

Mast type	CF150
Total length mm	5 700
Feed motion length mm	3 525
Feed shifting length mm	1 000 - 1 200

Rollover

Rollover type	360 °
Tip cylinder	No
Power tilt	Option
Connecting plate	Adaptator plate depending excavator model (on request)
Quick coupler plate	Depending on required model (on request)

Drifter

Drifter model	HD2004/HD2010/HD4010
Rotative model	-
Retraction force kN	20
Max torque Nm	Up to 7 700
Max speed rpm	400 - 248

Radio remote control	Yes
Radio remote with pressure indicators	Option
Suggested excavator	Min 20T
Mounting type	Adaptator plate

Clamping

Clamping type	Clamping & Breaking
Clamping range	50 - 200
Clamping force N	212 000
Loosening torque Nm	48 700
Key of loosening	Option

Hydraulic requirements

Oil requirements l/min	170 - 250 - 280
Operating pressure bar	230

Drilling operations

Case drilling mm	< 133
Rock drilling` diameter mm	38 - 89
DTH drilling diameter mm	150
Self Anchor	R32-R38-R51-R76
Drilling diameter mm	100 - 160
Injection access	Yes

Dimensions

Weight Kg (without safety cage)	2 500
Total Width mm	1 350
Total Length mm	5 700
Total Height mm	1 700
